Certificate II in Conservation and **ECOSYSTEM MANAGEMENT**

With deep roots in the Building and Construction industry, we know what it takes to shape workforce-ready, highly skilled trade professionals who stand out from the crowd.

At FTA, we don't just deliver training, we unlock potential.

Our focus is simple: real results, expert guidance, and pathways to success. With qualified trainers, flexible study options, and practical, hands-on support, you'll gain the confidence, skills, and drive to thrive in your career. Don't just learn a trade, master it. Train with the best.

HELP PROTECT OUR NATURAL WORLD

If you're passionate about the environment and keen to play a hands-on role in its protection, the Certificate II in Conservation and Ecosystem Management is an ideal pathway. This nationally recognised qualification develops the practical skills required to support ecosystem restoration, natural resource management, and biodiversity conservation.

Whether you are looking to start a rewarding career in land management or are an outdoor enthusiast wanting to give back to the planet, this course provides the tools to make a genuine impact. You will gain hands-on experience in essential skills such as soil management, native plant identification, and wildlife habitat restoration, while working in real-world outdoor environments.

With Australia's unique and diverse ecosystems, graduates will contribute directly to the conservation and protection of some of the most valuable and fragile landscapes in the country.

BENEFITS

Pave your way with recognised qualification for greater career opportunities.

Achieve your goals with real world experience while you earn and train on site.

Mentorship from highly qualified trainers

FUNDING

Foundation Training Australia provides a range of funding opportunities designed to support your learning needs and career goals.
